Skills

- Python
- HTML
- MySQL
- Data Analysis
- Advanced Excel, MS Word, PowerPoint
- EEG Signal Processing

Soft Skills

- Leadership
- Problem Solving
- Communication
- Time Management

Academic Coursework

- 3D Printing (NEC - Novel Engaging Course)
- EEG Signal Processing (SIP)

Achievements

- Scholarship (Class 12)
- Scholarship Holder (B.Tech 1st Year – Present)
- Current CGPA: 7.55

Interests

- Chess
- Karate
- Swimming

Career Objective

Mathematics and Computing student with strong analytical and programming skills, seeking opportunities to apply problem-solving abilities in real-world applications.

Education

B.Tech in Mathematics and Computing

MITS, Gwalior

(Expected Graduation: 2028)

Class 12

Kopal H.S. School

78.2% (Scholarship)

Class 10

Army Public School

70.1%

Projects

EEG Signal Processing & Machine Learning

Tech: Python

Performed signal preprocessing and applied basic machine learning techniques for EEG signal classification and pattern analysis.

Currency Converter (API)

Tech: Python

Developed a real-time currency converter using API integration to fetch and process live exchange rates dynamically.

Vehicle Management System

Tech: MySQL

Built database system for efficient vehicle record management.

Civil Documentation Project

Prepared report on construction permission documentation process.

Leadership & Activities

NSS Team Leader

Led team and organized social initiatives.

Patang Utsav Organizer

Managed multiple college events.

Field Survey Experience

Conducted surveys under NSS activities.
